Cloudy	Light rain	Heavy Rain	Heavy Rain	Cloudy	Cloudy
Precipitation probability					
30%	40%	50%	40%	40%	30%

Forecast for Saturday 10 Oct 2020

Weather: A rather cloudy day with occasional showers. These heavy at times, and most frequent across northern and western parts. Drier, with the best of any brighter spells in the southeast. Feeling cold in the brisk winds, especially across exposed tops.

Chance of cloud free mountain/hill tops above 600m: 60% across northwestern hill with some patchy cloud above 600m. 90% elsewhere with some cloud breaks likely, especially during the afternoon.

Visibility: Air clarity will be good, allowing some distant views in drier intervals. Often these will be limited by the heavy showers or low cloud obscuring the highest summits.

**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View

A rather chilly and occasionally wet day on the hills with periods of poor visibility possible due to the showers. Coupled with brisk winds, it will be feeling rather cold, even during the drier intervals.

Recent rainfall: measured at Neuadd: altitude 353m

Recorded at	Last 24 hours:	Last 48 hours:	Last 72 hours:
02:00 on Sat 10 Oct 2020	1.2mm	12.8mm	25mm

Forecast for Sunday 11 Oct 2020

Weather: Showers will continue overnight across some western hills, but gradually easing and becoming less frequent by Sunday morning. A largely fine day is then expected with winds easing and some sunny spells developing. There will be a risk of further showers through the day, but besides these conditions will be much improved compared to Saturday.

Maximum wind: Northwesterly 20-30mph, gradually easing to westerly 15-20mph through the day.

Chance of cloud free mountain/hill tops above 600m: 60% at first northwestern hills with widespread cloud at 600m, increasing to 90% as clouds above most tops through the day. Otherwise 90% with only patchy cloud at 800m

Visibility: Excellent views of distant hills through the day, with just the odd reduction during any showers or periods of cloud on highest tops.

Temperature: **Valleys:** Plus 4 Celsius rising to Plus 14 Celsius
At 600m: Plus 6 Celsius
Freezing level: Above the summits.
